In order to validate warranty coverage, the customer must present the repair order complete with the following information: VIN, part number, serial number, date and mileage at time of repair. The authorized Chrysler, Dodge, Jeep®, Ram, FIAT® and Alfa Romeo location will verify the Mopar Powertrain Part's eligibility and determine the disposition (all diagnostic and labor fees are the responsibility of the retail consumer). Part restrictions may apply. Contact 866-262-8517 Prompt 1 if you have any questions. Mopar Parts and Magneti Marelli Offered by Mopar Parts replaced on an FCA US LLC vehicle still covered by the FCA US LLC New Vehicle Basic Limited Warranty are warranted for the remainder of the Powertrain New Vehicle Basic Limited Warranty.

Labor (1) – Labor is paid at FCA US warranty labor hours at the dealer's warranty labor rate.

Labor (2) – Labor is paid at FCA US warranty labor hours at the repair facility or dealer labor rate, whichever is lesser of the repair facility's rate or the selling dealer's warranty rate determined by original customer installation receipt. When submitting a warranty claim, the WD must provide the part and a copy of the installer's original repair order, including the VIN, repair date, part number and labor hours if claiming labor reimbursement. Warranty pre-approval is required: 866-262-8517 Prompt 2.

Towing* – Towing is covered with a maximum allowance of \$75.00. VIN, mileage and date of tow are required on invoice.

Mopar Powertrain Warranty Registration System* – To activate the Powertrain Warranty, complete the Mopar Parts Powertrain Warranty Registration at the time of sale via DealerCONNECT for both dealer installed, independent repair facility installed and over-the-counter wholesale Mopar and Mopar Remanufactured and SUSTAINera Powertrain components. At the time of sale, a copy of the limited warranty and registration card found in the component packaging must be provided to the customer.

Claim Support* – Part registration at time of installation or customer's original repair order or receipt showing date of purchase, purchased location and labor details if applicable.

It is required that all 3-Year/100,000-Mile Limited Warranty Powertrain Parts be registered at the time of sale to the installer. You can verify that a powertrain part has been registered with FCA US by entering the "Mopar Part Registration" application under the Service tab on DealerCONNECT. Once in the application, just enter the last eight digits of the VIN and click on the "Search" button. Any available registrations should then come up. If the part has not been registered, the message "Registration Not Found" will appear at the top of the application.

** HEMI® crate engine kits are covered by a 3-Year/100,000-Mile Powertrain Limited (parts exchange only) Warranty. Crate Engine Controller Kit must be purchased on the same invoice as the engine to qualify for the 3-Year/100,000-Mile Parts Exchange Warranty. Failure to provide proof of the installation kit with the engine will void the 3-Year/100,000-Mile Powertrain Warranty. Direct Connection HEMI crate engines would then be covered against defects in materials and workmanship for a 90-day period (parts exchange only).

*** Complete remanufactured and SUSTAINera Cummins diesel engines purchased for use in any other application than an FCA US Ram truck will void the 2-Year/100,000-Mile Warranty. Mopar Powertrain Parts are covered against defects in materials and workmanship for a 90-day period (parts exchange only) for any installation which varies from the original equipment specifications.

**** For Cummins short and long block engines and cylinder heads purchased prior to May 1, 2017, the coverage is for 6 months and unlimited mileage.

***** Some individual parts listed are covered by the Mopar 3-Year/100,000-Mile Powertrain Parts Limited Warranty only if they are purchased as part of the engine or transmission assembly. Parts purchased individually are covered by the Mopar 2-Year/Unlimited-Mileage Basic Limited Warranty.

WHAT IS NOT COVERED:

Mopar Warranties cover neither non-FCA US LLC or non-Mopar Parts, components or equipment. These warranties also do not cover the costs of any repairs or adjustments that might be caused by or needed because of the use or installation of any non-FCA US LLC or non-Mopar Parts, equipment, materials or additives.

Mopar Warranties do not cover the costs of repairing damage or conditions caused by fire or accident; by abuse, negligence or misuse (for example: driving over curbs, or overloading or racing the vehicle); by improper adjustment, alteration or failure to maintain the vehicle on which parts are installed; or corrosion or damage caused by the use of caustic materials.

Mopar® Warranties do not cover parts installed on a vehicle used for racing or competition, nor do they cover the repair of any damage or conditions caused by racing or competition.

Mopar Warranties do not cover the costs of repairing or replacing any part due to damage caused by poor or improper maintenance, contaminated fuels, or the use of fuels, oils, lubricants or fluids of a type other than those recommended in your Owners Manual.

Mopar Warranties do not cover the costs of damage caused by environmental factors or Acts of God. "Environmental factors" include such items as airborne fallout, chemicals, tree sap, salt, ocean spray and road hazards. "Acts of God" include such things as hail, floods, windstorms, lightning, tornadoes, sandstorms and earthquakes.

Mopar Warranties do not apply to parts installed on a vehicle that has had its odometer or emissions systems tampered with or disconnected, or that has been declared a total loss by any insurance company; or is rebuilt after being declared a total loss; or is issued a certificate of title indicating that it is designated as "salvage," "junk," "rebuilt" or words of similar import. FCA US LLC will deny warranty coverage without notice if it finds that a vehicle is ineligible for warranty coverage because it has been salvaged or declared a total loss as set forth in this paragraph.

Mopar Limited Warranties do not cover any incidental or consequential damages connected with the failure of the part under warranty. Such damages include lost time; inconvenience; the loss of the use of your vehicle; the cost of rental cars, gasoline, telephone, travel or lodging; the loss of personal or commercial property; or the loss of revenue. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

Your warranties can also be restricted by FCA US LLC, as set forth in the New Vehicle Limited Warranty. If your New Vehicle Limited Warranty is restricted by FCA US LLC, coverage under your Mopar Parts and Accessories Limited Warranties may also be restricted or denied.

Damage caused by any other force such as an accident, large debris, fraud, falling objects, road debris or other Acts of God are not warrantable.

Additional exclusions may apply.

Powertrain components sold to businesses in Canada or Mexico for the purpose of resale do not receive the applicable Powertrain Warranty. International purchases made online are not covered.

OVERHEATED ENGINES WARRANTY POLICY

Mopar® is announcing a new warranty policy change for any previously replaced engine due to engine overheat conditions. This policy change is effective with vehicles received for repair on or after September 30, 2023.

Engine overheating conditions are not warrantable, and therefore are not covered under any applicable warranty (Powertrain, Mopar, etc.).

The exceptions that could be covered under warranty would be:

- A Mopar cooling system part caused the overheat condition (water pump, thermostat, etc.).

Note: Proof of the Mopar causal part purchase or work order must be provided for Mopar (M) type claims. For Warranty (W) type claims, the failed cooling system component must be identified and noted in the technician notes.

If a customer/independent repair facility (IRF) returns an engine that was purchased over-the-counter with a warranty concern, the dealer will verify that the correct engine was returned by checking the engine serial number, confirm if the part was registered and inspect the heat tabs. If the heat tabs are pink or red, the rules below apply. If the heat tabs are pink or red, confirm a warrantable cooling system failure. If this process is not followed, the dealer could be subject to chargeback for accepting the incorrect or defective engine.

Normal White Sensor

Overheated Pink Sensor
255°F Coolant Temp

Overheated Red Sensor
+255°F Coolant Temp

When a customer returns with an engine warranty concern from a prior repair, the dealer's technician must complete the following:

- Verify the engine serial number.
- Inspect the heat tabs.
- If the heat tabs are pink or red, root cause a warrantable Mopar cooling system failure prior to installing a Mopar replacement engine.

Note: If this process is not followed, the dealer could be subject to chargeback for accepting the incorrect or defective engine.

MOPAR® RECOMMENDATION

- Inspect and/or replace the cooling system components on the initial replacement (examples below):
 - Water Pump
 - Thermostat
 - Radiator
 - Hoses/Clamps
 - Drain and fill the cooling system according to procedure.
 - Inspect cooling fans.
-

ADDITIONAL INFORMATION

- Multi-layered steel head gasket failures and warped head/block are the result of an overheat, not the cause of the overheat.
- Loose head bolts are a result of a collapsed head gasket after an overheat condition.
- All Mopar® Service engines are end-of-the-line tested for leak down, compression and oil pressure compliance.

Implied warranties, such as warranties of merchantability, are excluded. (An implied warranty of merchantability means that the part is reasonably fit for the general purpose for which it was sold.) The entire risk as to quality and performance of such parts is with the buyer. Should such parts prove defective following their purchase, the buyer and not the manufacturer, distributor or retailer, assumes the entire cost of all necessary servicing or repair. Chrysler, Dodge, Jeep, and Ram vehicle and parts warranties are voided if the vehicle or parts are used for competition. The addition of performance parts does not by itself void a vehicle's warranty. However, added performance parts (parts not originally supplied on the vehicle from the factory) are not covered by the vehicle's warranty, and any failure that they may cause is not covered by the vehicle's warranty.

Direct Connection Limited Warranties do not cover any incidental or consequential damages connected with the failure of the part under warranty. Such damages include lost time, inconvenience, the loss of the use of your vehicle, the cost of rental cars, gasoline, telephone, travel or lodging; the loss of personal or commercial property; or the loss of revenue. EMISSIONS STATEMENT

Direct Connection Performance customers are responsible for complying with applicable federal state and local environmental laws and regulations. Many Direct Connection Performance Parts and components are designed to be equipped in vehicles that are operated not on streets or highways (such as vehicles intended for competition or off-road use). Motor vehicles designed for transport on streets or highways and equipped with such parts may cause such motor vehicles to be out of compliance with applicable emissions standards. It may be a violation of federal and state law to operate such motor vehicles equipped with such parts, except where vehicles equipped with such parts are operated not on streets or highways and where such vehicles lack features customarily associated with safe and practical highway use.

If you install such parts on a motor vehicle, and your motor vehicle fails a required state or local inspection and maintenance (I/M) emissions test, including any test required to maintain or renew your motor vehicle's registration, or if your motor vehicle is subject to an emissions recall, in either case, FCA US LLC may not be required to repair your motor vehicle under the emissions warranty, and you may be required to remove those parts and replace them with other parts at your own expense in order to obtain repairs necessary to pass the I/M emissions test or to ensure your motor vehicle is compliant with applicable emissions standards after the recall repair.

HOW TO OBTAIN WARRANTY SERVICE

Where both parts and labor are covered in warranty items, repair will be made by any Dodge Power Brokers Dealership at no charge. Where parts only are covered, the Dodge Power Brokers Dealership will provide replacement parts at no charge. FCA US LLC will deny warranty coverage without notice if it finds that a vehicle is ineligible for warranty coverage because it has been salvaged or declared a total loss as set forth in this paragraph.

Interpretation of the terms of this warranty must be done using Michigan law. These limited warranties give you specific legal rights and you may also have other rights which vary from state to state.

Batteries found to be defective in materials or workmanship will be replaced at no charge for the part-specified free replacement period from the date of purchase. Either 18 months or 24 months of free replacement coverage will be provided from the date of purchase, specified on the battery label.

When providing a replacement battery, the remaining time for coverage does not reset with the new replacement. The battery will retain the amount of covered months until expiration of coverage based on the original date the retail battery was purchased.

Stellantis-specific new vehicle information:

Batteries installed on a Stellantis vehicle covered by the New Vehicle Basic Limited Warranty, which are found to be defective, are warranted for the remainder of the New Vehicle Basic Limited Warranty, or within the free replacement period, whichever is more favorable to the customer.

If the vehicle is equipped with a prorated warranty battery (not all batteries include a prorated warranty, see the top of the battery for warranty details), the owner may receive a prorated allowance toward the purchase of a new bproauto® replacement battery.

If the vehicle is not equipped with a prorated warranty battery, is no longer covered by the New Vehicle Basic Limited Warranty, and the free replacement period for the bproauto Battery Warranty has expired, the owner may receive a prorated allowance toward the purchase of a new bproauto replacement battery.

This warranty is given only to the original retail purchaser, and this warranty is thus nontransferable. The prorated amount will be computed by dividing the number of months since the date the battery was purchased or installed as original equipment (as shown by the date on the customer repair order or parts counter ticket) by the number of months of proration shown on the battery and multiplied by the purchase price of the battery. A battery that fails under the New Vehicle Basic Limited Warranty will be replaced with a bproauto battery of equal or next highest amp-hour rating.
