Mopar® REMAN 62TE Transmissions

THE MOPAR REMAN ADVANTAGE

Top 10 reasons the Mopar REMAN 62TE Transmission is the right choice.

When you choose a Mopar® REMAN 62TE Transmission, you're getting all the latest engineering design improvements applied to ensure the most reliable performance out there. That means the Mopar REMAN 62TE Transmission isn't just an upgrade in comparison to what is available – it's better than the aftermarket.

- Upgraded front carrier from 3 to 4 planet design
- Upgraded low clutch retainer and seals to new design
- Upgraded compounder and transfer gear bearings, cones and cups
- Upgraded park guide cylinder to more robust design
- Differential pinion shaft retaining bracket replaced
- Additional torque converter bolts and replacement dowel pins included
- All valve bodies are 100% anodized and tested
- All solenoid assembly seals and springs are replaced and tested
- All Mopar REMAN 62TE Transmissions are end of line (EOL) tested – similar to FCA US production EOL test specifications
- Competitively priced and covered by the Mopar 3-Year/100,000-Mile Powertrain Limited Warranty
