

USE OF AFTERMARKET PARTS POSITION STATEMENT

FCA US LLC POSITION

December 1, 2025

GENUINE MOPAR PARTS

FCA US LLC vehicles and genuine Mopar Parts are designed and manufactured to meet production engineered specifications, while maximizing the safety of all occupants in a collision. If a collision repair is necessary, all repairs should be performed by a certified trained technician and follow vehicle-specific repair procedures available at [TechAuthority.com](https://www.techauthority.com) using only genuine Mopar body parts, mechanical components, electrical components, as well as all safety devices such as airbags and seatbelts. Failure to follow proper procedures or deviation from Original Equipment parts could result in compromising performance of impact safety systems.

USE OF AFTERMARKET PARTS

FCA US LLC does not approve of the use of aftermarket or third-party replacement parts. FCA US LLC does not approve of the use of recycled, salvaged, aftermarket or reconditioned parts. Aftermarket parts are not subject to the same requirements of entire vehicle operation or function and may not be manufactured to the same standards or design. This could compromise the overall safety of the vehicle should a future collision occur. The original parts used on all FCA US LLC vehicles are designed and built to provide optimum fit, function, safety and structural integrity. These parts are carefully designed to act as a safety system and are rigorously impact tested to ensure optimal performance. Aftermarket parts may not be built to FCA US LLC's exact design and can therefore affect the performance of important structural and safety features of the vehicle. To ensure replacement parts meet the safety, performance and quality standards set by FCA US LLC is to purchase Mopar Original Equipment parts through an authorized FCA US LLC dealer.

Only genuine Mopar Repair Parts and Mopar Glass are designed, engineered, manufactured and tested to the FCA US LLC internal and government-mandated standards and are the only parts equivalent to the originally installed parts.

Aftermarket parts are not covered under any warranty by FCA US LLC, and their use may cause other related components to not be covered under warranty should a failure occur. Genuine Mopar replacement parts and accessories installed by certified technicians help preserve the performance and integrity of your vehicle.

FCA US LLC vehicle lease agreements specify that ONLY genuine Mopar replacement parts be utilized for collision repairs to the vehicle.
