

bproauto® Batteries Limited Warranty

Batteries found to be defective in materials or workmanship will be replaced at no charge for the part-specified free replacement period from the date of purchase, as noted below.

Batteries installed on a Stellantis vehicle covered by the New Vehicle Basic Limited Warranty, which are found to be defective, are warranted for the remainder of the New Vehicle Basic Limited Warranty, or within the free replacement period, whichever is more favorable to the customer.

If the vehicle is equipped with a prorated warranty battery (not all batteries include a prorated warranty, see the top of the battery for warranty details), the owner may receive a prorated allowance toward the purchase of a new bproauto® replacement battery.

If the vehicle is not equipped with a prorated warranty battery, is no longer covered by the New Vehicle Basic Limited Warranty, and the free replacement period for the bproauto Battery Warranty has expired, the owner may receive a prorated allowance toward the purchase of a new bproauto replacement battery.

This warranty is given only to the original retail purchaser, and this warranty is thus nontransferable. The prorated amount will be computed by dividing the number of months since the date the battery was purchased or installed as original equipment (as shown by the date on the customer repair order or parts counter ticket) by the number of months of proration shown on the battery and multiplied by the purchase price of the battery. A battery that fails under the New Vehicle Basic Limited Warranty will be replaced with a bproauto battery of equal or next highest amp-hour rating.

WHAT IS NOT COVERED:

Batteries that are discharged are not considered defective.
